

## **Hstar Technology Group**

Hstar Technology Group located in Murphys (Calaveras County) is growing rapidly as they invest in fixed wireless towers all over Calaveras County. In the last 18 months Hstar has added 20 towers to offer service to many remote locations along the highway 4 corridor, Angels Camp, Avery, Murphys, San Andreas and Columbia. Hstar thinks out of the box to deliver service in areas that never could dream of high speed internet service. For the past 2 years Hstar has been offering free public WI-FI in historic downtown Angels Camp. They also cover the County Fairgrounds with a low cost Wi-Fi solution for events and the RV Park guest.

Hstar is a full service technology company that offers a wide spectrum of services including computer repair, website development, audio/video equipment rentals, business phone systems, technology consulting for business and individuals and so much more. Being small town based they have developed a one stop service company to tackle all of Calaveras County's technology needs.

Founder Tim Hildabrand, an entrepreneur from Silicon Valley has vast experience with the integration of technology into the business world. Growing a company during the 80's-to present he has seen the needs a company has to make to survive in the constant changing business environment. This is what sets Hstar Technology apart for all other companies in the Mother Lode region. They have found that business owners and individuals are looking for a one stop company to handle all of their technology needs.

Hstar has been expanding into providing high speed internet to more and more business clients throughout Calaveras County. Many business and home based business owners are desperate to get connected into a high speed internet connection. With the only options for them in the past being dial up or slow and restrictive satellite internet. Many of our clients depend on our services to run their business and it has to be up and running 24/7. Being a local Calaveras company run by local staff who know the area and are quick to respond to customer's needs. Our primary focus is customer satisfaction in all aspects of the services they offer.

Hstar Technology group is heavily involved in the community with staff who volunteer with various community organizations. Calaveras County Search and Rescue, Calaveras Youth Mentoring program, Public Access TV, Mother Lode Workforce Investment Board and many others.
